INVESTMENT FOCUS

The Fund aims to deliver a positive return on your capital in euro by investing primarily in shares of US and European companies that are listed on the stock exchange or traded on another regulated market. These shares have generally been neglected by the markets but have a promising outlook. The Fund invests a smaller portion of its assets, on an ancillary basis, in companies from other regions around the world.
The Fund's investment decisions are based on analysing the cash flows of companies while ensuring diversification. This analysis enables the Fund to identify companies with solid fundamentals and good visibility that are traded on the market at a price the Fund deems attractive. If they meet these criteria, such companies offer healthy growth potential.
The Fund may enter into futures or options contracts (derivatives) that are listed on the stock exchange or traded over the counter. The purpose of these derivatives is to both optimise portfolio management and to protect its value against an unfavourable change on the financial markets.
This is an actively managed Fund without a benchmark. The manager can choose the composition of the portfolio but must adhere to the Fund's investment policy and objectives.
This not a distribution unit class. All income from the Fund's investments is reinvested and incorporated into the value of your units.
You may sell units from this class on any bank business day in Luxembourg.
Recommendation: the Fund may not be suited to investors who wish to redeem within five years.
The investments underlying this sub-fund do not take into account the European Union's criteria for environmentally sustainable economic activities. This sub-fund has been classified as compliant with article 6 of SFDR.

Disclaimer

Contrarian Equities at Work is a sub-fund of CapitalatWork Foyer Umbrella which is authorized in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier. This document has been prepared by FundSight S.A. and is not intended for distribution in any jurisdiction or country where distribution would be illegal. The information contained in this document is intended for Professional Clients only. The value of an investment portfolio and the income from it may fall as well as rise and investors may not get back the amount originally invested. Past performance is not necessarily a guide to the future.

This document should be read in conjunction with its prospectus and Key Investor Information Document (KIID) available in English at www.capitalatwork.com or www.fundsquare.net. All transactions should be based on the latest available prospectus and KIID which contains more information regarding the charges, expenses, where the funds are authorised for sale and risks involved in your investment. A summary of investors rights is included in the prospectus available in English. The manager or management company may decide to terminate the arrangements made for the marketing of its collective investment undertakings in accordance with Article 93a of Directive 2009/65/EC and Article 32a of Directive 2011/61/EU.

This is marketing information. Investment in investment funds is subject to market risks. Past performance results are no indication of future results.

Especially performance results referring to a period of less than twelve months are no reliable indicator for future results due to the short comparison period. Issuance and redemption commissions are not included in the performance figures. In Switzerland, the prospectus, articles of association, the annual and semi-annual reports and/or any such documents, which are required for the approval in compliance with the applicable foreign law, may be obtained free of charge from the Swiss Representative and Paying Agent. This document may be distributed in Switzerland only to qualified investors within the meaning of Art. 10 para. 3 to 3ter CISA.
