## What is this product?

### TYPE

The product is a sub-fund of Capitalatwork Foyer Umbrella, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

### TERM

The Fund has been formed for an unlimited period. The Board of Directors may liquidate the Fund at any time.

### OBJECTIVES

The objective of this Sub-Fund is to offer its investors consistently high levels of income while maintaining liquidity and investing primarily in money market securities and fixed-rate or floating-rate bonds. The composition of the Sub-Fund's portfolio takes into account geographical risk diversification requirements. Average portfolio duration may not exceed 36 months.

The Sub-Fund may purchase government bonds as well as corporate bonds. It may also invest in any type of fixed income product (e.g. convertibles, reverse convertibles, inflation-linked bonds, etc.), if such investments are in the interest of shareholders given the evolution of market conditions.

The Sub-Fund may invest up to 5% of its net assets in equities on an ancillary basis. The holding of shares by this Sub-Fund is directly linked to the holding of convertible bonds. In the event of conversion, the positions are not systematically sold immediately, but based on market developments.

The Sub-Fund may use term deposits within the meaning of article 41(1) of the Law of 17 December 2010, up to 20% of its net assets, in order to optimise its cash management.

The holding of such ancillary liquid assets is limited to 20% of the net assets of the Sub-Fund. The above-mentioned 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors.

The Sub-Fund may also invest in units or shares of sub-funds of other UCITS or UCIs, including this SICAV, subject to a limit of 10% of its assets.

Assets subject to securities lending transactions are not expected to exceed 30% of the Sub-Fund's net asset value. Assets subject to securities lending transactions may not exceed 70% of the Sub-Fund's net asset value. This maximum may not be exceeded under any circumstances.

The Sub-Fund is actively managed; Investment Managers can choose the composition of the portfolio but must adhere to the investment policy and objectives.

The investments underlying this Sub-Fund do not take into account the European Union's criteria for environmentally sustainable economic activities.

This Sub-Fund has been classed as an Article 6 fund under the SFDR.

This is a distribution unit class.

### INTENDED RETAIL INVESTOR

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for receiving regular income and who wish to hold their investment over 3 years.

### OTHER INFORMATION

The Depository is CACEIS Bank, Luxembourg Branch.

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for 3 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:	3 years EUR 10 000		
	If you exit after 1 year	If you exit after 3 years	

Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs	EUR 9 070	EUR 9 320	
	Average return each year	-9.3%	-2.3%	
Unfavourable scenario	What you might get back after costs	EUR 9 710	EUR 9 660	This type of scenario occurred for an investment in the product between March 2017 and March 2020.
	Average return each year	-2.9%	-1.1%	
Moderate scenario	What you might get back after costs	EUR 10 020	EUR 10 000	This type of scenario occurred for an investment in the product between October 2016 and October 2019.
	Average return each year	0.2%	0.0%	
Favourable scenario	What you might get back after costs	EUR 10 320	EUR 10 310	This type of scenario occurred for an investment in the product between December 2021 and December 2024.
	Average return each year	3.2%	1.0%	

The stress scenario shows what you might get back in extreme market circumstances.

## What happens if FundSight S.A. is unable to pay out?

FundSight S.A. is not making any payment to you in relation to this Fund and you would still be paid in case of a default from FundSight S.A.

The Sub-Fund's assets are held with CACEIS Bank, Luxembourg Branch and are segregated from the assets of other sub-funds of the SICAV. The assets of the Sub-Fund cannot be used to pay the debts of other sub-funds.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

Investment of EUR 10 000	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 70	EUR 211
Annual cost impact (*)	0.7%	0.7%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.7% before costs and 0.0% after costs.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Please refer to the Prospectus for more information on the specific risks relevant to the product not included in the summary risk indicator.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.
